

ASTROROSHNI PROFESSIONAL REFERENCE

Parashari Desk

Feature & Workflow Guide

A visual guide to charts, dashas, activation timing, event-focused analysis and classical strength tools—across desktop and mobile web.

PRODUCT CAPTURE • DESKTOP WORKSPACE • 09 AUG 2026

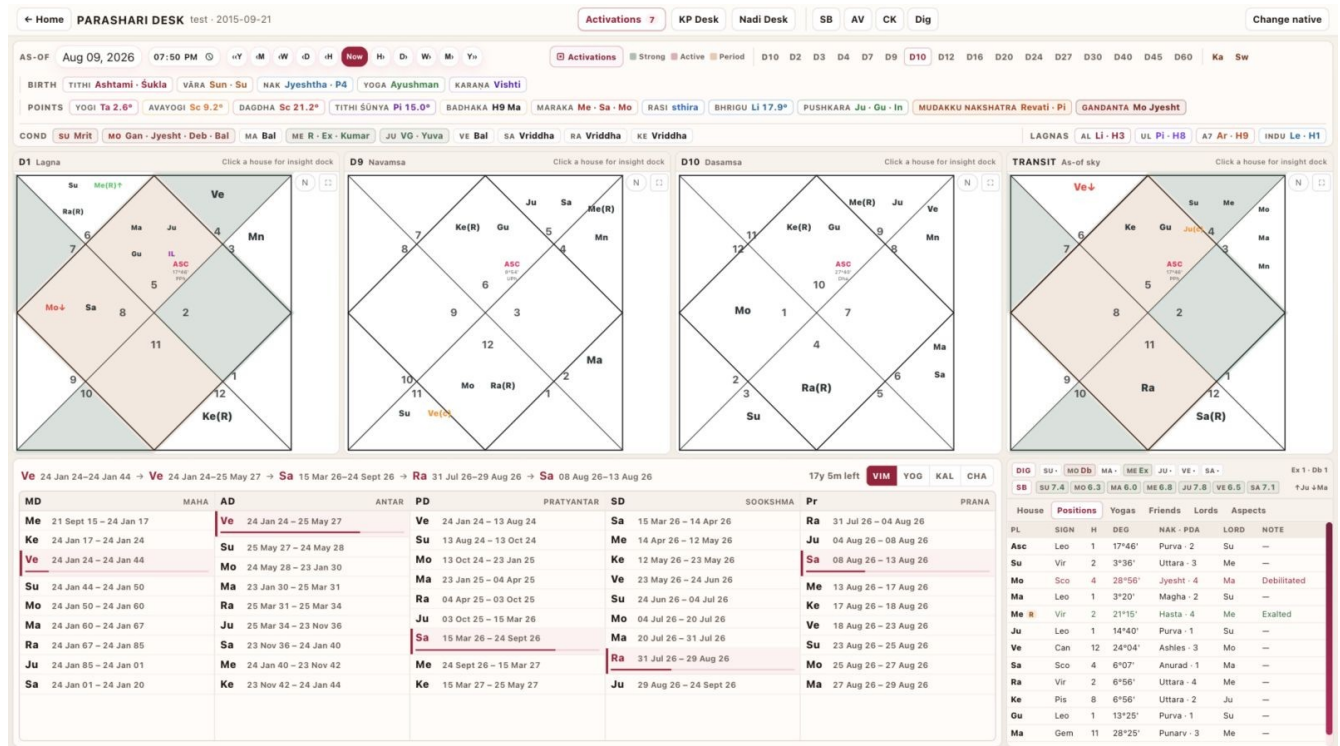

Built for working astrologers: one as-of date, linked charts and dashas, inspectable timing evidence.

Document version 1.0 | Screenshots use a test chart; values change with the selected native and as-of time.

ORIENTATION

The desk at a glance

Parashari Desk keeps natal context, the selected as-of sky, period lords and predictive evidence in one coordinated workspace.

Desktop overview: four-chart canvas, five-level dasha browser, analysis dock and activated-house colouring.

- **One temporal spine.** The as-of controls drive transits, activation timing and period-sensitive tools.
- **Four working zones.** Header intelligence, charts, dasha browser and analysis/activation dock stay linked.
- **Progressive disclosure.** Dense calculations remain available without overwhelming the primary reading surface.
- **Responsive continuity.** Mobile reorganises the same work into Chart, Dasha, Act and More tabs.

1 • CONTROL SPINE

Header intelligence & temporal control

The header is not decoration: it establishes the native, the working date and the contextual facts used throughout the desk.

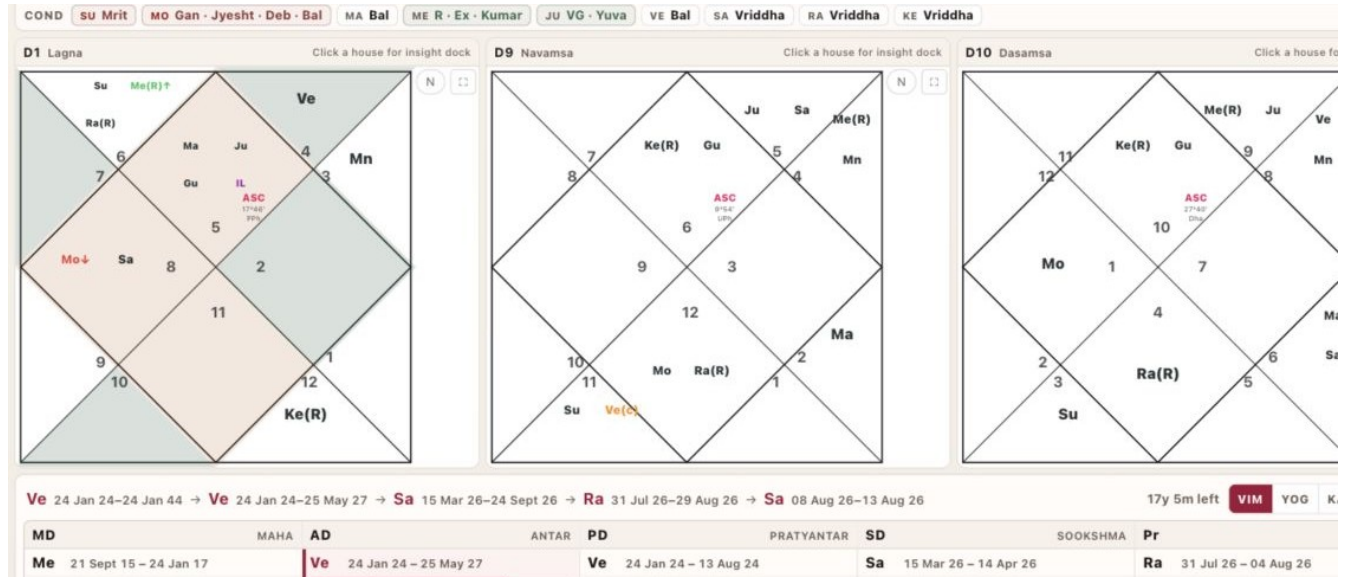

Header detail: as-of navigation, birth Panchanga, special points, planetary conditions and special lagnas.

- **Native context.** Return Home, switch to KP or Nadi desks, or replace the active birth chart without leaving the workspace.
- **As-of navigator.** Jump by year, month, week, day or hour; return to Now; edit date and time directly.
- **Birth Panchanga.** Tithi, vāra, nakshatra and pada, yoga and karaṇa remain visible for immediate context.
- **Special points.** Yogi/Avayogi, Dagdha, Tithi Śūnya, Badhaka, Maraka, Rāśi type, Bhṛigu Bindu, Pushkara, Mudakku Nakshatra and Gandanta.
- **Conditions & lagnas.** Planetary state labels plus AL, UL, A7 and Indu Lagna provide fast interpretive anchors.

2 • CHART WORKSPACE

Charts that stay in context

The desktop canvas supports comparison; the mobile browser exposes every chart without forcing a long vertical stack.

D1, D9, D10 and Transit in the desktop reading canvas. Activated houses are shaded in D1 and Transit when activation mode is on.

- **Complete divisional set.** D1, D2, D3, D4, D7, D9, D10, D12, D16, D20, D24, D27, D30, D40, D45 and D60, plus Kārakāṁśa and Swāmśa.
- **Chart controls.** North/South chart orientation and full-screen inspection are available from the chart header.
- **House insight.** Selecting a house opens contextual interpretation in the insight dock.
- **Activation colours.** Strong, Active and Period states are applied only to D1 and Transit, with a visible legend and expandable explanation.
- **Transit-specific navigation.** The chart-level date navigator appears only when Transit is selected on mobile.

3 • TIMING SYSTEMS

Dasha browser: hierarchy without losing the thread

The dasha browser presents the active chain and adjacent periods together, making it practical to compare the current lord stack with what opens next.

Me 21 Sept 15 – 24 Jan 17	Ve 24 Jan 24 – 25 May 27	Ve 24 Jan 24 – 13 Aug 24	Sa 15 Mar 26 – 14 Apr 26	Ra 31 Jul 26 – 04 Aug 26

Desktop dasha browser: Mahā, Antar, Pratyantar, Sūkṣma and Prāṇa periods in parallel columns.

- **Five visible levels.** MD, AD, PD, SD and Prāṇa are readable at the same time with active rows clearly marked.
- **Four systems.** Vimshottari, Yogini, Kalachakra and Chara are available as first-class tabs.
- **Period navigation.** Selecting a period drills into the next level; the chain summary preserves orientation.
- **Date synchronisation.** Period selection can move the desk as-of so charts and activation evidence follow the chosen time.

4 • PREDICTIVE ACTIVATION

Activation Timeline: from state to timing window

Timeline combines dasha portfolios and transits into house-level states, then exposes the reason each timing slice opens and ends.

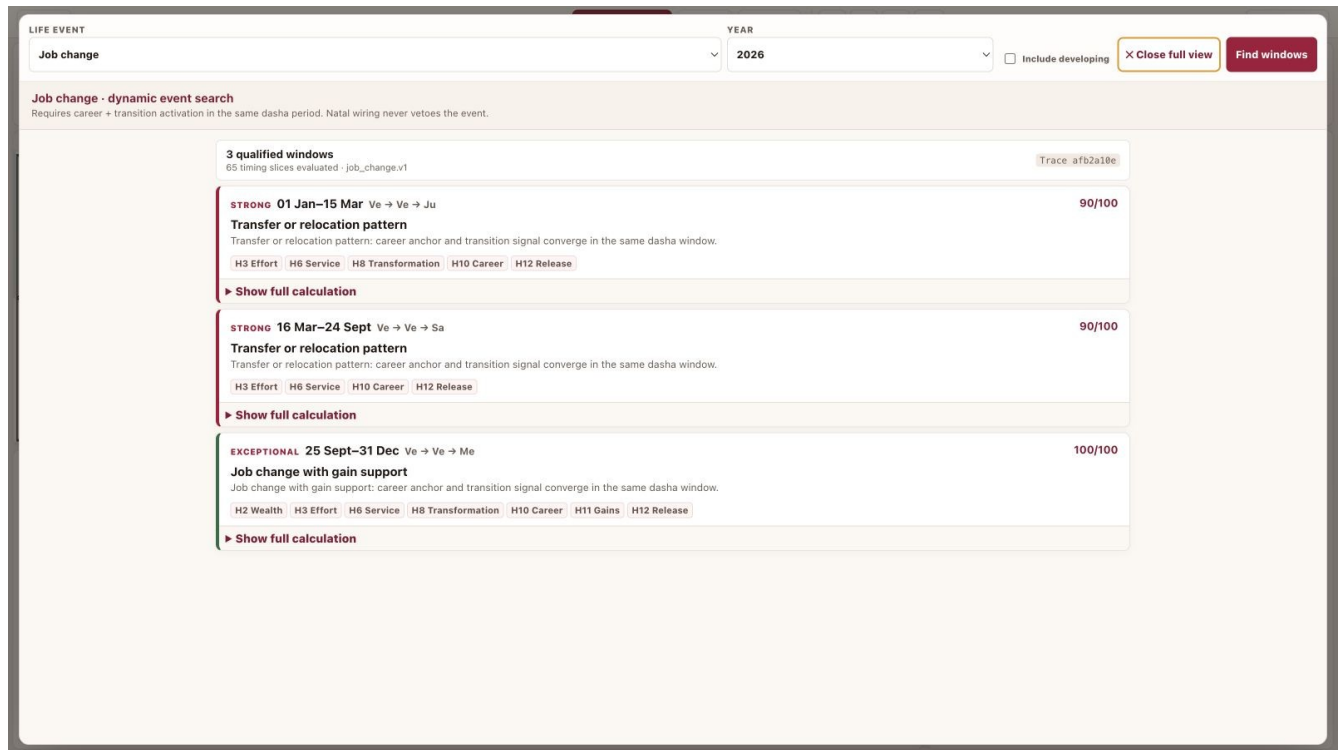

Activation mode on desktop: D1, D9 and Transit above a timeline with a full-height timing-window detail pane.

- **State legend.** Strong, Active, Period and Quiet remain a compact one-line key; definitions expand only when needed.
- **Now and Next.** Current activated houses are separated from upcoming windows.
- **Timing boundaries.** Each slice explains what opened it and the change that closes it.
- **Evidence detail.** The selected house shows dasha participation, transit contact, support/challenge tone and interpretive context.
- **As-of handoff.** A timing window can set the whole desk to its start for chart and dasha inspection.

5 • GUIDED PREDICTION

Focus: event-specific window finding

Focus asks a concrete life-event question for a selected year, scores qualified windows and keeps the event definition reusable for future life areas.

Job Change focus search in full view, showing qualified windows and the event contract used to find them.

- **Current focus areas.** Job Change and Health use explicit, inspectable rules rather than generic house activation alone.
- **Year search.** Choose a year, optionally include developing windows, and run the bounded calculation.
- **Qualified windows.** Results expose confidence, peak date, period lords and concise reasons.
- **Full view.** A dedicated reading surface removes unrelated tabs and gives the result list and calculation pane room to breathe.
- **Expandable architecture.** The event definition, scoring gates and evidence sections can add future life areas without rebuilding the desk.

6 • TRUST LAYER

Calculation trace: make the algorithm inspectable

Every Focus result can be audited in plain language. The interface explains why a gate passed, which planets carried it and what independently confirmed the timing.

The screenshot displays the 'Job change' calculation trace in the Parashari Desk interface. At the top, there's a search bar with 'Job change' entered and a 'YEAR' dropdown set to '2026'. A 'Find windows' button is visible. Below the search bar, a section titled 'Job change - dynamic event search' explains the criteria: 'Requires career + transition activation in the same dasha period. Natal wiring never vetoes the event.' The main content area shows '3 qualified windows' with a score of '90/100'. It details a 'Transfer or relocation pattern' and provides a 'Show full calculation' link. The calculation is broken down into 'WHY THIS QUALIFIED' and '14 timing slices mean that transit, nakṣatra or dasha facts changed inside one continuous event window.' The 'Career anchor' section shows a 'Passed +25/25' result, while 'H6 Service' and 'H10 Career' sections show 'Strong' results. The interface also includes a 'Trace' link and a 'Close full view' button.

Expanded calculation for a qualified job-change window: score gates, houses, dasha connections and transit timing evidence.

- **Career anchor.** Shows whether employment/service or profession/status is opened by the active dasha.
- **Transition signal.** Shows concurrent initiative, transformation, disruption or release indicators.
- **Dasha relevance.** Names the MD/AD/PD lords and their natal portfolios.
- **Independent timing.** Surfaces direct transit hits, Jupiter–Saturn reinforcement, dasha boundaries, returns and repeated contacts.
- **Outcome refinement.** H2/H11 support and D10 confirmation refine the likely professional result.

7 • LONG-RANGE TIMING

Double Transit Browser

This calculator enumerates exact Jupiter-Saturn periods in which both planets activate the same natal house, without substituting guessed ephemeris values.

The screenshot displays the Parashari Desk Double Transit Browser interface. At the top, there are navigation tabs and a search bar. Below the search bar, there are three charts: D1 Lagna, D9 Navamsa, and TRANSIT As-of sky. The TRANSIT chart shows the current positions of Jupiter and Saturn. Below the charts, there is a table of double transit results. The table has columns for the date range, the planets involved, and the houses activated. The table is filtered to show results for the current time window. On the right side, there is a sidebar with filters and a detailed explanation of the results. The sidebar includes a section for 'JUPITER x SATURN Double Transit Browser' and a section for 'FULL DOUBLE TRANSIT'.

Sa	24 Jan 01 - 24 Jan 20	Ke	23 Nov 42 - 24 Jan 44	Ke	15 Mar 27 - 25 May 27	Ju	29 Aug 26 - 24 Sept 26	Ma	27 Aug 26 - 29 Aug 26

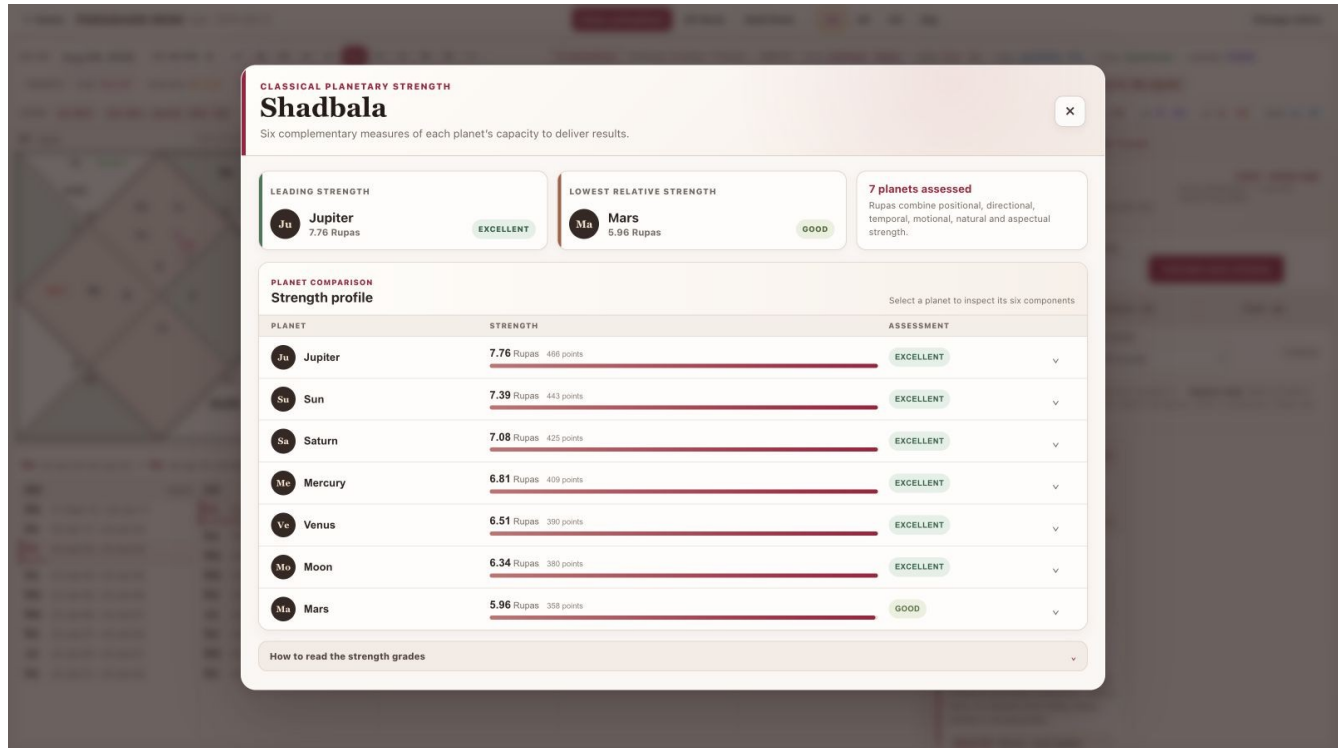

Double Transit view: exact-year search, Current/Future/Past segmentation, filters and fully explained house cards.

- **Exact windows.** Swiss Ephemeris ingress boundaries are returned by the server and displayed with device-timezone timestamps.
- **Contact modes.** Filter Full double transits, aspect-only contacts or both.
- **Life-area filters.** Narrow results to career, relationships, wealth, children, property, health, education or travel.
- **Interpretive card.** Each result names the house, planet positions/aspects, natal sign/lord/occupants and the governing interpretation rule.
- **Desk synchronisation.** Selecting a card moves the desktop as-of to the window start for immediate chart and dasha verification.

8 • STRENGTH TOOLS

Classical strength, presented for comparison

Shadbala turns six-component planetary strength into a professional comparison surface while preserving the underlying point and Rūpa totals.

Shadbala modal: leading and lowest relative strength, ranked planet cards, Rūpas, point totals and expandable components.

- **At-a-glance range.** Leading and lowest relative strength frame the chart before detailed comparison.
- **Ranked profile.** All seven planets show Rūpas, total points and an assessment grade.
- **Component detail.** Expand a planet to inspect positional, directional, temporal, motional, natural and aspectual strength.
- **Supporting strips.** Planetary dignity and Shadbala summaries remain available in the More workspace.

9 • CLASSICAL ANALYSIS

Ashtakavarga & Jaimini tools

Full-screen tools preserve complex matrices and categorical results without compressing them into unreadable popups.

Ashtakavarga Analysis - Lagna Chart

Ashtakavarga screen: Birth/Transit/Compare modes with Matrix, SAV, BAV and Predictions sections.

Chara Karakas

Aligned to lowest degrees in signs (excluding Nakshatras) - Jaimini Chara Karakas System

Atmakaraka	Amatyakaraka	Dharmakaraka	Mokshakaraka
Moon	Venus	Mercury	Jupiter
Saturn	Sun	Mars	Uranus

Chara Karakas: ranked Jaimini significators with role descriptions.

Chara Karakas

Aligned to lowest degrees in signs (excluding Nakshatras) - Jaimini Chara Karakas System

Atmakaraka	Amatyakaraka	Dharmakaraka	Mokshakaraka
Moon	Venus	Mercury	Jupiter
Saturn	Sun	Mars	Uranus

Also available from the More workspace alongside planetary dignities.

- **Ashtakavarga modes.** Birth, Transit and Compare keep the reference frame explicit.
- **Ashtakavarga sections.** Matrix, SAV, BAV and Predictions are direct tabs; wide tables support touch and horizontal scrolling on mobile.
- **Chara Karakas.** Atmakaraka through Darakaraka are shown in degree order with their interpretive roles.
- **Dignities.** Exaltation, debilitation and other dignity states are available as a compact summary and detailed tool.

10 • RESPONSIVE WORKSPACE

Mobile web: charts and dashas

On mobile, the desk becomes four continuous bottom-tab workspaces. Controls stay thumb-reachable while the selected content receives the full viewport.

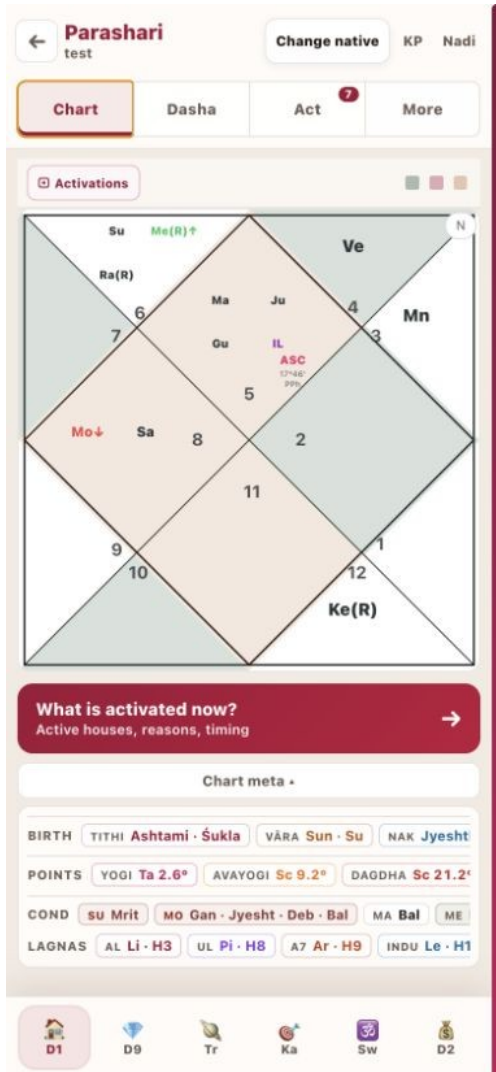

Chart: full-width D1, activation legend, insight entry point and horizontally scrollable chart browser.

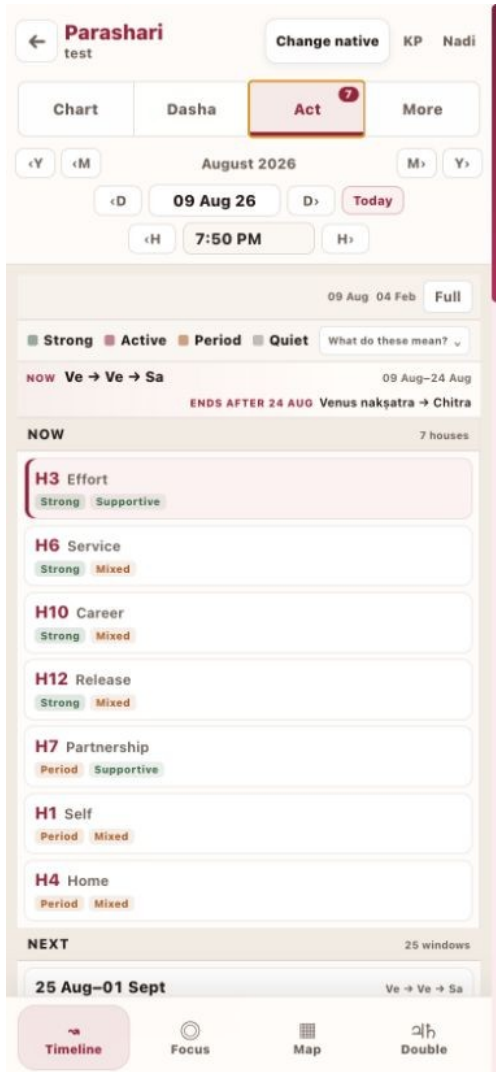

Dasha: as-of controls plus five simultaneous period levels and bottom system tabs.

- **Chart browser.** All divisional charts, Transit, Kārakāṁśa and Swāṁśa remain available in a horizontal bottom row.
- **Readable hierarchy.** Chart meta is open by default but collapsible; active-house explanation is a prominent action.
- **Dasha density.** Horizontal level rows retain surrounding periods without forcing a long vertical list.
- **System tabs.** Vimshottari, Yogini, Kalachakra and Chara form a continuous bottom tab bar.

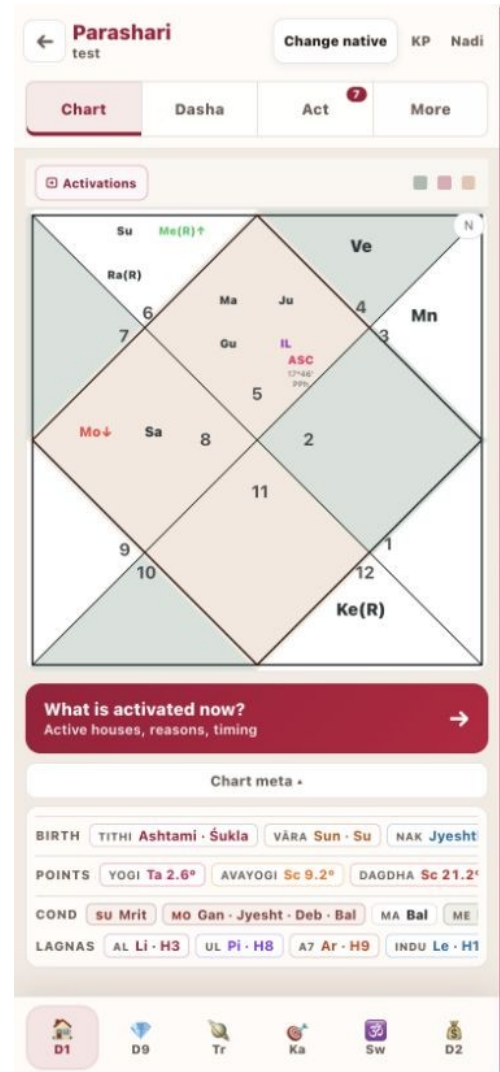

11 • RESPONSIVE WORKSPACE

Mobile web: activations and analysis

The mobile Act and More workspaces separate predictive timing from reference tables while preserving fast switching and readable type.

Act: compact legend, current houses, upcoming windows and Timeline/Focus/Map/Double tabs.

More: dignity, Shadbala, Ashtakavarga, Chara Karakas and analysis tables with bottom section tabs.

- **Activation lenses.** Timeline, Focus, Map and Double Transit are fixed as mobile bottom tabs.
- **Natural page scroll.** Lists participate in the screen scroll instead of trapping touch gestures in nested panes.
- **More sections.** House, Positions, Yogas, Friends, Lords, Aspects and Meta are accessible from the bottom section row.
- **Professional touch targets.** Continuous tab rows, readable typography and thicker selection states replace tiny chips.

12 • WORKING METHOD

Recommended predictive workflow

Use the desk as a sequence of tests. Each stage narrows the question and gives the next stage a concrete date, house or planet to inspect.

1	Establish the natal frame	Read D1, relevant divisional chart, strengths, dignity and the special-point/meta strips.
2	Choose a concrete question	Use Focus for Job Change or Health; use Timeline/Map for open-ended house activation.
3	Confirm dasha permission	Inspect MD/AD/PD natal portfolios and the five-level chain at the candidate date.
4	Confirm independent timing	Check direct transit contact, repeated natal relationships, exact returns, boundaries and Double Transit.
5	Refine strength and outcome	Use D9/D10 or the relevant varga, Shadbala, dignity and Ashtakavarga support.
6	Move the desk as-of	Open the candidate date so charts, dashas and activation evidence describe the same moment.

Interpretation principle: activation is timing evidence, not a guaranteed event. Read natal context, dasha permission, transit confirmation and divisional/strength support together.

APPENDIX

Feature index

A compact inventory of the desk's visible capabilities and the question each one answers.

Area	Feature	What it gives the astrologer
Header	As-of navigation	What sky and dasha period am I reading right now?
Header	Birth Panchanga & meta	What birth-time qualities and special points frame the chart?
Charts	D1 + complete varga set	Where is the promise, and in which life domain does it specialise?
Charts	Kārakāmśa / Swāmśa	What Jaimini soul and divisional ascendant contexts apply?
Charts	Transit + activation colour	Which natal houses are being timed at the selected moment?
Dashas	Vimshottari / Yogini / Kalachakra / Chara	Which period framework is currently operative?
Activations	Timeline	What is active now and what changes next?
Activations	Focus	Are there qualified windows for a named life event in this year?
Activations	Map	Which houses are open across the selected period?
Activations	Double Transit	When do Jupiter and Saturn simultaneously contact a natal house?
Evidence	Calculation trace	Why did the event engine qualify this window?
Strength	Shadbala & dignity	How capable is each planet of delivering its indications?
Strength	Ashtakavarga	How much bindu support exists by house, planet and transit frame?
Jaimini	Chara Karakas	Which planets carry the seven movable significator roles?
Analysis	House/positions/yogas/friends/lords/aspects/meta	What supporting relationships and chart facts refine the reading?

End of guide
